

YOU'RE DOING RIGHT BY THE ENVIRONMENT

Now you need the right people.
In the right place. With the right skills.

You're helping to reduce our country's reliance on traditional energy sources by building our renewable energy infrastructure. However, renewable energy construction can be complicated. Not only do you have to hire a specialized workforce to build your project, you need another set of maintenance experts when it's completed. That's where CLP can help. We're renewable energy labor experts who can act as an extension of your in-house human resources team. We'll recruit and hire a field workforce to fit your specific project needs, handle the details that come with employing them, and even cover workers' comp and other employment issues.

A PARTNER YOU CAN COUNT ON

At CLP, we work with some of the nation's largest developers of wind, solar and geothermal energy. And we know that your renewable energy project relies on having a qualified, experienced field workforce, precisely when and where you need them. You can rely on CLP to provide the skilled tradespeople your project requires.

We have specialized industry knowledge in:

- **Recruiting** specialized tradespeople with renewable energy experience
- **Phasing** a project workforce to eliminate delays and keep projects on track
- **Responding** quickly to each customer's needs

Working with our affiliate company, Project Trades Solutions (PTS), CLP offers a traveling workforce that can be deployed to even the most remote locations. Our PTS workforce adheres to specialized safety protocols that ensure your projects maintain a superior safety experience.

100% SERVICE GUARANTEE

CLP guarantees your satisfaction with the reliable skilled tradespeople we provide. If, during the first four hours of the assignment, you're not pleased with our employee's performance for any reason, we'll replace the employee and you won't be billed for the unsatisfactory performance. That's our 100% Service Guarantee.

You can rely on us for all skilled trades, including:

Iron Workers ■ Concrete Form Setters & Finishers ■ Drillers ■ Torx Mechanics
Equipment Operators ■ Excavators ■ High Voltage Electricians ■ Climbers
Pipefitters ■ Boilermakers ■ Laborers/Assemblers ■ Linesmen ■ Material Techs
Fiberglass Techs ■ Millwrights ■ Mortar Framers ■ Welders ■ Low Voltage Techs
